

After all, the essential thing at a fair is communicating

High speed at all times: our internet

There are different kinds of internet connections – this also applies to your visit to NürnbergMesse: Depending on your applications' broadband demand, you can order an asynchronous ADSL connection – or choose a synchronous SDSL or VDSL provision. We provide stream speed starting at 4Mbit/s up to 100 Mbit/s. The basic equipment consisting of an Ethernet user port and an IP address can be extended at any time.

Fee saving inclusive: our phone equipment

Analog or digital, Voice over IP or Voice over WLAN, access without phone or access including a small phone system: NürnbergMesse leaves you the choice regarding everything for the phone. Only the telephone charge we offer is so good that there's no alternative – just don't forget to order it.

For your stand office: our computer equipment

Fair preparations are stressful enough. It can be a real relief when you are not forced to bring your own IT equipment but you simply order it from us. Printers, PCs or switches are part of our basic product range. Please also feel free to ask for special services which are not part of this reference.

As individual as your communication solution may be – you always get:

- Ready-for-use and on-time installation and handover as well as dismantling
- Free Service Hotlines
- Highly modern technical standard, powered by NürnbergMesse and Siemens Enterprise Communications

Internet €2.40

Voice €2.41

PC Equipment €2.43

WLAN €2.45

powered by NürnbergMesse and

1. Standard: ADSL

- 1.1 Asynchronous Internet Provision 4 Mbit/s**
 - Highspeed ADSL internet connection: up to 4 Mbit/s downstream and 256 kbit/s upstream
 - Flat rate (no volume and time limit)
 - Including technical installation and a DSL router
 - Including one dynamic IP address

(Art. 51001010) **EUR 295.00** Items _____

One fixed public IP address optional
(Art. 51000000) **EUR 65.00**
- 1.2 Asynchronous Internet Provision 4 Mbit/s**
 - Highspeed ADSL internet connection: up to 4 Mbit/s downstream and 1 Mbit/s upstream
 - Flat rate (no volume and time limit)
 - Including technical installation and a DSL router
 - Including one dynamic IP address

(Art. 51001020) **EUR 410.00** Items _____

One fixed public IP address optional
(Art. 51000000) **EUR 65.00**
- 1.3 Asynchronous Internet Provision 16 Mbit/s**
 - Highspeed ADSL internet connection: up to 16 Mbit/s downstream and 1 Mbit/s upstream
 - Flat rate (no volume and time limit)
 - Including technical installation and a DSL router
 - Including one dynamic IP address

(Art. 51001030) **EUR 850.00** Items _____

One fixed public IP address optional
(Art. 51000000) **EUR 65.00**

2. Professional: SDSL/VDSL

- 2.1 Synchronous Internet Provision 4 Mbit/s**
 - Highspeed SDSL internet connection: up to 4 Mbit/s downstream and 4 Mbit/s upstream
 - Flat rate (no volume and time limit)
 - Including technical installation and a SDSL router
 - Including one fixed public IP address

(Art. 51002010) **EUR 1,050.00** Items _____

Additional fixed public IP address on request
- 2.2 Synchronous Internet Provision 10 Mbit/s**
 - Highspeed SDSL internet connection: up to 10 Mbit/s downstream and 10 Mbit/s upstream
 - Flat rate (no volume and time limit)
 - Including technical installation and a SDSL router
 - Including one fixed public IP address

(Art. 51002020) **EUR 1,950.00** Items _____

Additional fixed public IP address on request
- 2.3 IP Connect Ethernet Internet Provision 50/100 Mbit/s**
 - Synchronous highspeed VDSL internet connection with at least 50 Mbit/s usable
 - Flat rate (no volume and time limit)
 - Including technical installation and a SDSL router
 - Including one fixed public IP address

(Art. 51002030) **EUR 3,250.00** Items _____

Additional fixed public IP address on request

This contract is governed by the following terms and conditions in the order of precedence shown: our Terms of Business for Communications (printed overleaf), the General and Special Conditions for Participation in Fairs and Exhibitions, the General Terms of Contract for the Exhibitors Info Manual and the General Terms of Business of the ServicePartner Siemens Enterprise Communications GmbH & Co. KG. All terms of business can be sent by NürnbergMesse on request.

* If necessary, NürnbergMesse is entitled to have the service ordered provided by another ServicePartner. In this case, the customer will be notified of the other ServicePartner in good time.

Place and date

Company stamp and authorized signature

Terms of Business for Communications

1. Parts of contract

The contract comprises the following parts in the order of precedence shown:

- the respective order forms;
- these Terms of Business for Communications;
- the General and Special Conditions for Participation in Fairs and Exhibitions;
- the General Terms of Contract for the Exhibitors Info Manual;
- the terms of business and specifications for services provided by external network operators (e.g. Siemens Enterprise Communications).

2. Orders

The information and communications services listed overleaf can only be ordered from NürnbergMesse. Orders are subject to acceptance by NürnbergMesse, which may be given implicitly, i.e. by providing the ordered service.

An express surcharge of 25% of the value of the order will be charged for orders placed at short notice (< 14 days before start of event). This does not apply to orders for WLAN.

If the exhibitor requires changes to services already provided by NürnbergMesse, particularly for the exhibition stand, and NürnbergMesse undertakes to carry out the changes, NürnbergMesse may impose a charge to cover the extra cost actually incurred for work connected with each change.

If the order is received and accepted by NürnbergMesse less than five weeks before the start of the event, NürnbergMesse cannot accept responsibility for the correct and timely provision of the service.

If in such cases NürnbergMesse fails to provide its services or does not provide them correctly or in time, the exhibitor shall only be entitled to withdraw from the contract for the information and communication services listed overleaf or to appropriately reduce the agreed payment. Any further claims are excluded.

Complete or partial cancellation of the order is possible in accordance with item 9 of the General Conditions for Participation in Fairs and Exhibitions.

3. Provision period

The information and communications services ordered will be provided for the duration of the relevant event. If exhibitors require information and communications services to be provided outside this period, these additional services must be requested separately from NürnbergMesse.

4. Provision

All services ordered will be provided by NürnbergMesse or its appointed subcontractors. Equipment will be hired to the exhibitor. The exhibitor shall treat the equipment provided with care and only use it for the purposes specified in the contract. Where the exhibitor's own terminal equipment is used, it must conform to the applicable legal provisions, including current EU Directives on terminal equipment and the CCITT recommendations, particularly recommendation I430. If the exhibitor does not adhere to the technical standards and faults arise as a result, NürnbergMesse may demand reimbursement by the exhibitor of the costs of fault analysis and clearance. NürnbergMesse may also demand that the exhibitor removes the terminal equipment causing the faults from the network immediately. For Internet accesses, the network cards used in the exhibitor's PCs must conform to the Ethernet specifications (IEEE 802.3). The requested optional fixed IP addresses and access data will be supplied to the exhibitor with the invoice and activated on settlement of the invoice.

The exhibitor must not use any IP addresses other than those provided by NürnbergMesse, or change the specified subnet masks. If the exhibitor does not comply with this obligation and faults arise as a result, NürnbergMesse is entitled to demand reimbursement by the exhibitor of the costs of fault analysis and clearance. NürnbergMesse may also exclude from the LAN any exhibitors who, despite prior warning, use IP addresses other than those allocated to them or use other subnet masks than those specified and demand compensation for the associated costs.

If faults arise in the PC of an exhibitor who is using other IP addresses than those allocated or who has changed the subnet masks, NürnbergMesse will clear the fault at the request and risk of the exhibitor at the NürnbergMesse prices applicable for the period of the event.

At the request of the exhibitor, the ServicePartner of NürnbergMesse will configure the PC, where this is technically and operationally feasible, at the exhibitor's own risk and at the prices applicable at the time of the event.

5. Service points/user help desk

A user help desk has been set up to deal with faults. The service points can be reached on the following numbers:

- Communication products (xDSL, phones, ...): +49 (0) 9 11. 86 06-48 48
- Wireless LAN products: +49 (0) 9 11. 86 06-40 00

The user help desk can be reached as follows:

3 days before and during the event:

Mon – Sun and holidays, 8 a.m. to 7 p.m. or until end of event

Outside event hours and during the dismantling period:

Mon – Fri, 9 a.m. to 5 p.m.

6. Loss/liability

If terminal equipment is lost or damaged at the time due for dismantling (see item 10, Return), NürnbergMesse reserves the right to charge the exhibitor for damages based on the value category.

Our value categories for loss and damage are:

- Category A → EUR 500.00 (e.g. ADSL modem, telephones, printers, fax units and other communication terminal equipment)
- Category B → EUR 1,000.00 (e.g. SDSL and VDSL modem, Wireless LAN router)
- Category C → EUR 1,500.00 (e.g. PC and other computer products)

The exhibitor retains the right to prove that no damage or considerably less damage than the fixed value has been caused.

The exhibitor will be liable for any loss, damage or destruction of all communications equipment provided to him. Where liability is dependent on blame, it is the responsibility of the exhibitor to demonstrate that he is not to blame.

7. Liability of organizer

The liability of the organizer is governed by item 19 of the General Conditions for Participation in Fairs and Exhibitions.

8. Terms and conditions for lines

All lines and equipment will be provided exclusively by NürnbergMesse or its ServicePartner.

The fee is payable for the provision of the information and communication service, irrespective of whether it is actually used by the exhibitor. NürnbergMesse ensures that the information and communication access is provided and that any faults and failures during the service times are cleared quickly. Faults and failures are to be reported to NürnbergMesse without undue delay, otherwise rapid processing of the fault and restoration of the information and communication access cannot be assured.

The exhibitor is obliged to keep the user IDs and passwords assigned to him secret and to ensure that these cannot be accessed by third parties. Unless otherwise expressly agreed, the disclosure of user IDs and passwords to third parties to enable them to use the information and communication services is prohibited. The exhibitor is obliged to use the information and communication access only in the correct manner using the login facilities provided (user ID, password etc.) and not to bypass any access restrictions.

The exhibitor himself is responsible for the security of his data traffic.

The exhibitor is aware that unencrypted data exchange over wireless media may be intercepted by third parties.

The use of the Internet is at the exhibitor's own risk.

Unless otherwise indicated, all contents constitute third-party content for the purposes of § 8 German Telemedia Act (TMG) and the exhibitor himself is responsible for accessing this information. This particularly applies to possible damage to his hardware or software, data loss or other adverse effects attributable to the use of the Internet over the information and communication infrastructure, provided the incident causing such damage has not been caused by NürnbergMesse in accordance with item 19 of the General Conditions for Participation in Fairs and Exhibitions.

The exhibitor is responsible for correct use of the information and communication accesses with the user ID assigned to him. The exhibitor shall ensure that no prohibited or illegal contents are accessed or published and that no other actions that contravene applicable regulations or third party rights are taken or tolerated. If NürnbergMesse incurs costs or damages due to inquiries by investigating authorities, requests for information or other official or private measures or claims in connection with the hired access/IP address, the exhibitor shall be obliged to compensate such damage, unless he proves that he is not to blame for the misuse of the assigned information and communication access by third parties.

NürnbergMesse reserves the right to deactivate the information and communication access without prior notice if the exhibitor or third parties using the user IDs and passwords assigned to the exhibitor contravene provisions of this contract or legal provisions. Such deactivation shall not affect the entitlement of NürnbergMesse to receive payment of the fee.

The prices quoted apply to provision in single-story stands. For WLAN solutions for multi-story stands, the provision price will apply only to installation on the upper floor.

NürnbergMesse will handle coordination of the complete provision. The connection points are defined by NürnbergMesse. Additional cable laying work on the stand will be charged separately.

9. Customer's own Wireless LAN

Exhibitors may only set up a WLAN (Wireless Local Area Network) if this has been expressly approved in writing by the Exhibition Services Department. A WLAN may cause technical problems. Approval is to be requested on the form "Application for approval to operate customer's own WLAN".

The exhibitor is liable for damage caused by the operation of a WLAN without approval.

The exhibitor agrees to comply with the following conditions. Non-compliance may result in claims for damages by the organizer or the neighboring exhibitors affected.

The WLAN hardware to be installed must comply with the applicable regulations for radio networks in Europe. Whether the hardware used complies with these regulations can be determined from the documentation supplied by the equipment manufacturer.

It is essential that the SSID is named after the exhibitor to enable identification of WLAN networks. In the event of non-compliance, NürnbergMesse shall be entitled to shut down the network until this requirement is fulfilled.

Should NürnbergMesse discover that interference is caused to its existing networks, it is entitled to request the exhibitor to shut down his radio network. Compliance with this request is obligatory.

Siemens Enterprise Communications is the sole supplier of a WLAN infrastructure for commercial use on the NürnbergMesse site.

NürnbergMesse grants Siemens Enterprise Communications exclusive frequency control over WLAN standards IEEE 802.11b/g in the 2.4 GHz band and IEEE 802.11a/h in the 5 GHz band for the full-coverage WLAN service on the NürnbergMesse site.

Only channel 1 in the 2.4 GHz band (2412 MHz) is available on the NürnbergMesse site for use for all other applications/WLAN networks for operation by service partners of NürnbergMesse and operation of exhibitors' own radio/WLAN networks.

NürnbergMesse reserves the right to refuse approvals or not to approve applications for exhibitors' own WLAN networks, depending on the number and physical assignment per hall.

As part of quality assurance measures, both unregistered and approved WLAN networks and WLAN networks with excessive transmit power levels will be identified and the operators notified. These networks may possibly be approved after checking or are to be shut down if requested by NürnbergMesse – there is no legal entitlement to approval.

If an amicable solution is not possible, technical measures will be implemented to prevent the illegal operation of such WLAN networks.

10. Return of terminal equipment

Terminal equipment will be collected by NürnbergMesse or its ServicePartner by not later than the last day of dismantling. The dismantling times are defined for each event. If in exceptional cases no collection has been made, the terminal equipment still on the stand is to be returned by the exhibitor to the ServicePartner and confirmation of receipt obtained. In case of doubt, the return of the equipment is to be proved by presenting confirmation of receipt. In exceptional cases, appointments can be arranged by phoning the telephone numbers listed under item 5.

Fee Package (mandatory)

- Fee Package**
 - If you order one of the following products 3.1 and 3.2 it is mandatory that you also order the fee package for each single item
 - Communication within every fixed and mobile network
 - To industrialized European countries and large parts of the world *)
 - Maximum of 120 minutes per fair day **)
 - Valid over the entire fair duration

Fair period	1-3 days	EUR 35.00
(Art. 51000010)		
Fair period	4 days and longer	EUR 49.00
(Art. 51000011)		

 - *) All European countries as well as China, USA, Canada, Russia, Argentina, Australia, Brazil, Hong Kong, Japan, Korea, Malaysia, New Zealand, Singapore, Taiwan, Thailand
 - **) • In case of exceeding 120 minutes on one fair day or telephoning to other countries than the ones named above, we'll charge this on a time and material basis and according to tariff but at least to the amount of EUR 10.
 - Special Hotlines (e.g. 0800..., 0190...) are excluded.

This contract is governed by the following terms and conditions in the order of precedence shown: our Terms of Business for Communications (printed overleaf), the General and Special Conditions for Participation in Fairs and Exhibitions, the General Terms of Contract for the Exhibitors Info Manual and the General Terms of Business of the ServicePartner Siemens Enterprise Communications GmbH & Co. KG. All terms of business can be sent by NürnbergMesse on request.

* If necessary, NürnbergMesse is entitled to have the service ordered provided by another ServicePartner. In this case, the customer will be notified of the other ServicePartner in good time.

Company stamp and authorized signature

Terms of Business for Communications

1. Parts of contract

The contract comprises the following parts in the order of precedence shown:

- the respective order forms;
- these Terms of Business for Communications;
- the General and Special Conditions for Participation in Fairs and Exhibitions;
- the General Terms of Contract for the Exhibitors Info Manual;
- the terms of business and specifications for services provided by external network operators (e.g. Siemens Enterprise Communications).

2. Orders

The information and communications services listed overleaf can only be ordered from NürnbergMesse. Orders are subject to acceptance by NürnbergMesse, which may be given implicitly, i.e. by providing the ordered service.

An express surcharge of 25% of the value of the order will be charged for orders placed at short notice (< 14 days before start of event). This does not apply to orders for WLAN.

If the exhibitor requires changes to services already provided by NürnbergMesse, particularly for the exhibition stand, and NürnbergMesse undertakes to carry out the changes, NürnbergMesse may impose a charge to cover the extra cost actually incurred for work connected with each change.

If the order is received and accepted by NürnbergMesse less than five weeks before the start of the event, NürnbergMesse cannot accept responsibility for the correct and timely provision of the service.

If in such cases NürnbergMesse fails to provide its services or does not provide them correctly or in time, the exhibitor shall only be entitled to withdraw from the contract for the information and communication services listed overleaf or to appropriately reduce the agreed payment. Any further claims are excluded.

Complete or partial cancellation of the order is possible in accordance with item 9 of the General Conditions for Participation in Fairs and Exhibitions.

3. Provision period

The information and communications services ordered will be provided for the duration of the relevant event. If exhibitors require information and communications services to be provided outside this period, these additional services must be requested separately from NürnbergMesse.

4. Provision

All services ordered will be provided by NürnbergMesse or its appointed subcontractors. Equipment will be hired to the exhibitor. The exhibitor shall treat the equipment provided with care and only use it for the purposes specified in the contract. Where the exhibitor's own terminal equipment is used, it must conform to the applicable legal provisions, including current EU Directives on terminal equipment and the CCITT recommendations, particularly recommendation I430. If the exhibitor does not adhere to the technical standards and faults arise as a result, NürnbergMesse may demand reimbursement by the exhibitor of the costs of fault analysis and clearance. NürnbergMesse may also demand that the exhibitor removes the terminal equipment causing the faults from the network immediately. For Internet accesses, the network cards used in the exhibitor's PCs must conform to the Ethernet specifications (IEEE 802.3). The requested optional fixed IP addresses and access data will be supplied to the exhibitor with the invoice and activated on settlement of the invoice.

The exhibitor must not use any IP addresses other than those provided by NürnbergMesse, or change the specified subnet masks. If the exhibitor does not comply with this obligation and faults arise as a result, NürnbergMesse is entitled to demand reimbursement by the exhibitor of the costs of fault analysis and clearance. NürnbergMesse may also exclude from the LAN any exhibitors who, despite prior warning, use IP addresses other than those allocated to them or use other subnet masks than those specified and demand compensation for the associated costs.

If faults arise in the PC of an exhibitor who is using other IP addresses than those allocated or who has changed the subnet masks, NürnbergMesse will clear the fault at the request and risk of the exhibitor at the NürnbergMesse prices applicable for the period of the event.

At the request of the exhibitor, the ServicePartner of NürnbergMesse will configure the PC, where this is technically and operationally feasible, at the exhibitor's own risk and at the prices applicable at the time of the event.

5. Service points/user help desk

A user help desk has been set up to deal with faults. The service points can be reached on the following numbers:

- Communication products (xDSL, phones, ...): +49 (0) 9 11. 86 06-48 48
- Wireless LAN products: +49 (0) 9 11. 86 06-40 00

The user help desk can be reached as follows:

3 days before and during the event:

Mon – Sun and holidays, 8 a.m. to 7 p.m. or until end of event

Outside event hours and during the dismantling period:

Mon – Fri, 9 a.m. to 5 p.m.

6. Loss/liability

If terminal equipment is lost or damaged at the time due for dismantling (see item 10, Return), NürnbergMesse reserves the right to charge the exhibitor for damages based on the value category.

Our value categories for loss and damage are:

- Category A → EUR 500.00 (e.g. ADSL modem, telephones, printers, fax units and other communication terminal equipment)
- Category B → EUR 1,000.00 (e.g. SDSL and VDSL modem, Wireless LAN router)
- Category C → EUR 1,500.00 (e.g. PC and other computer products)

The exhibitor retains the right to prove that no damage or considerably less damage than the fixed value has been caused.

The exhibitor will be liable for any loss, damage or destruction of all communications equipment provided to him. Where liability is dependent on blame, it is the responsibility of the exhibitor to demonstrate that he is not to blame.

7. Liability of organizer

The liability of the organizer is governed by item 19 of the General Conditions for Participation in Fairs and Exhibitions.

8. Terms and conditions for lines

All lines and equipment will be provided exclusively by NürnbergMesse or its ServicePartner.

The fee is payable for the provision of the information and communication service, irrespective of whether it is actually used by the exhibitor. NürnbergMesse ensures that the information and communication access is provided and that any faults and failures during the service times are cleared quickly. Faults and failures are to be reported to NürnbergMesse without undue delay, otherwise rapid processing of the fault and restoration of the information and communication access cannot be assured.

The exhibitor is obliged to keep the user IDs and passwords assigned to him secret and to ensure that these cannot be accessed by third parties. Unless otherwise expressly agreed, the disclosure of user IDs and passwords to third parties to enable them to use the information and communication services is prohibited. The exhibitor is obliged to use the information and communication access only in the correct manner using the login facilities provided (user ID, password etc.) and not to bypass any access restrictions.

The exhibitor himself is responsible for the security of his data traffic.

The exhibitor is aware that unencrypted data exchange over wireless media may be intercepted by third parties.

The use of the Internet is at the exhibitor's own risk.

Unless otherwise indicated, all contents constitute third-party content for the purposes of § 8 German Telemedia Act (TMG) and the exhibitor himself is responsible for accessing this information. This particularly applies to possible damage to his hardware or software, data loss or other adverse effects attributable to the use of the Internet over the information and communication infrastructure, provided the incident causing such damage has not been caused by NürnbergMesse in accordance with item 19 of the General Conditions for Participation in Fairs and Exhibitions.

The exhibitor is responsible for correct use of the information and communication accesses with the user ID assigned to him. The exhibitor shall ensure that no prohibited or illegal contents are accessed or published and that no other actions that contravene applicable regulations or third party rights are taken or tolerated. If NürnbergMesse incurs costs or damages due to inquiries by investigating authorities, requests for information or other official or private measures or claims in connection with the hired access/IP address, the exhibitor shall be obliged to compensate such damage, unless he proves that he is not to blame for the misuse of the assigned information and communication access by third parties.

NürnbergMesse reserves the right to deactivate the information and communication access without prior notice if the exhibitor or third parties using the user IDs and passwords assigned to the exhibitor contravene provisions of this contract or legal provisions. Such deactivation shall not affect the entitlement of NürnbergMesse to receive payment of the fee.

The prices quoted apply to provision in single-story stands. For WLAN solutions for multi-story stands, the provision price will apply only to installation on the upper floor.

NürnbergMesse will handle coordination of the complete provision. The connection points are defined by NürnbergMesse. Additional cable laying work on the stand will be charged separately.

9. Customer's own Wireless LAN

Exhibitors may only set up a WLAN (Wireless Local Area Network) if this has been expressly approved in writing by the Exhibition Services Department. A WLAN may cause technical problems. Approval is to be requested on the form "Application for approval to operate customer's own WLAN".

The exhibitor is liable for damage caused by the operation of a WLAN without approval.

The exhibitor agrees to comply with the following conditions. Non-compliance may result in claims for damages by the organizer or the neighboring exhibitors affected.

The WLAN hardware to be installed must comply with the applicable regulations for radio networks in Europe. Whether the hardware used complies with these regulations can be determined from the documentation supplied by the equipment manufacturer.

It is essential that the SSID is named after the exhibitor to enable identification of WLAN networks. In the event of non-compliance, NürnbergMesse shall be entitled to shut down the network until this requirement is fulfilled.

Should NürnbergMesse discover that interference is caused to its existing networks, it is entitled to request the exhibitor to shut down his radio network. Compliance with this request is obligatory.

Siemens Enterprise Communications is the sole supplier of a WLAN infrastructure for commercial use on the NürnbergMesse site.

NürnbergMesse grants Siemens Enterprise Communications exclusive frequency control over WLAN standards IEEE 802.11b/g in the 2.4 GHz band and IEEE 802.11a/h in the 5 GHz band for the full-coverage WLAN service on the NürnbergMesse site.

Only channel 1 in the 2.4 GHz band (2412 MHz) is available on the NürnbergMesse site for use for all other applications/WLAN networks for operation by service partners of NürnbergMesse and operation of exhibitors' own radio/WLAN networks.

NürnbergMesse reserves the right to refuse approvals or not to approve applications for exhibitors' own WLAN networks, depending on the number and physical assignment per hall.

As part of quality assurance measures, both unregistered and approved WLAN networks and WLAN networks with excessive transmit power levels will be identified and the operators notified. These networks may possibly be approved after checking or are to be shut down if requested by NürnbergMesse – there is no legal entitlement to approval.

If an amicable solution is not possible, technical measures will be implemented to prevent the illegal operation of such WLAN networks.

10. Return of terminal equipment

Terminal equipment will be collected by NürnbergMesse or its ServicePartner by not later than the last day of dismantling. The dismantling times are defined for each event. If in exceptional cases no collection has been made, the terminal equipment still on the stand is to be returned by the exhibitor to the ServicePartner and confirmation of receipt obtained. In case of doubt, the return of the equipment is to be proved by presenting confirmation of receipt. In exceptional cases, appointments can be arranged by phoning the telephone numbers listed under item 5.

- Including technical installation and dial number

(Art. 51004050) **EUR 255.00** Items _____

Fee Package (mandatory)

Fee Package

- If you order one of the following products 4.1-4.3 and 4.5 it is mandatory that you also order the fee package for each single item
- Communication within every fixed and mobile network
- To industrialized European countries and large parts of the world *)
- Maximum of 120 minutes per fair day **)
- Valid over the entire fair duration

Fair period **1-3 days** **EUR 35.00**
(Art. 51000010)

Fair period **4 days and longer** **EUR 49.00**
(Art. 51000011)

- *) All European countries as well as China, USA, Canada, Russia, Argentina, Australia, Brazil, Hong Kong, Japan, Korea, Malaysia, New Zealand, Singapore, Taiwan, Thailand
- **) In case of exceeding 120 minutes on one fair day or telephoning to other countries than the ones named above, we'll charge this on a time and material basis and according to tariff but at least to the amount of EUR 10.
- Special Hotlines (e.g. 0800..., 0190...) are excluded.

This contract is governed by the following terms and conditions in the order of precedence shown: our Terms of Business for Communications (printed overleaf), the General and Special Conditions for Participation in Fairs and Exhibitions, the General Terms of Contract for the Exhibitors Info Manual and the General Terms of Business of the ServicePartner Siemens Enterprise Communications GmbH & Co. KG. All terms of business can be sent by NürnbergMesse on request.

* If necessary, NürnbergMesse is entitled to have the service ordered provided by another ServicePartner. In this case, the customer will be notified of the other ServicePartner in good time.

Terms of Business for Communications

1. Parts of contract

The contract comprises the following parts in the order of precedence shown:

- the respective order forms;
- these Terms of Business for Communications;
- the General and Special Conditions for Participation in Fairs and Exhibitions;
- the General Terms of Contract for the Exhibitors Info Manual;
- the terms of business and specifications for services provided by external network operators (e.g. Siemens Enterprise Communications).

2. Orders

The information and communications services listed overleaf can only be ordered from NürnbergMesse. Orders are subject to acceptance by NürnbergMesse, which may be given implicitly, i.e. by providing the ordered service.

An express surcharge of 25% of the value of the order will be charged for orders placed at short notice (< 14 days before start of event). This does not apply to orders for WLAN.

If the exhibitor requires changes to services already provided by NürnbergMesse, particularly for the exhibition stand, and NürnbergMesse undertakes to carry out the changes, NürnbergMesse may impose a charge to cover the extra cost actually incurred for work connected with each change.

If the order is received and accepted by NürnbergMesse less than five weeks before the start of the event, NürnbergMesse cannot accept responsibility for the correct and timely provision of the service.

If in such cases NürnbergMesse fails to provide its services or does not provide them correctly or in time, the exhibitor shall only be entitled to withdraw from the contract for the information and communication services listed overleaf or to appropriately reduce the agreed payment. Any further claims are excluded.

Complete or partial cancellation of the order is possible in accordance with item 9 of the General Conditions for Participation in Fairs and Exhibitions.

3. Provision period

The information and communications services ordered will be provided for the duration of the relevant event. If exhibitors require information and communications services to be provided outside this period, these additional services must be requested separately from NürnbergMesse.

4. Provision

All services ordered will be provided by NürnbergMesse or its appointed subcontractors. Equipment will be hired to the exhibitor. The exhibitor shall treat the equipment provided with care and only use it for the purposes specified in the contract. Where the exhibitor's own terminal equipment is used, it must conform to the applicable legal provisions, including current EU Directives on terminal equipment and the CCITT recommendations, particularly recommendation I430. If the exhibitor does not adhere to the technical standards and faults arise as a result, NürnbergMesse may demand reimbursement by the exhibitor of the costs of fault analysis and clearance. NürnbergMesse may also demand that the exhibitor removes the terminal equipment causing the faults from the network immediately. For Internet accesses, the network cards used in the exhibitor's PCs must conform to the Ethernet specifications (IEEE 802.3). The requested optional fixed IP addresses and access data will be supplied to the exhibitor with the invoice and activated on settlement of the invoice.

The exhibitor must not use any IP addresses other than those provided by NürnbergMesse, or change the specified subnet masks. If the exhibitor does not comply with this obligation and faults arise as a result, NürnbergMesse is entitled to demand reimbursement by the exhibitor of the costs of fault analysis and clearance. NürnbergMesse may also exclude from the LAN any exhibitors who, despite prior warning, use IP addresses other than those allocated to them or use other subnet masks than those specified and demand compensation for the associated costs.

If faults arise in the PC of an exhibitor who is using other IP addresses than those allocated or who has changed the subnet masks, NürnbergMesse will clear the fault at the request and risk of the exhibitor at the NürnbergMesse prices applicable for the period of the event.

At the request of the exhibitor, the ServicePartner of NürnbergMesse will configure the PC, where this is technically and operationally feasible, at the exhibitor's own risk and at the prices applicable at the time of the event.

5. Service points/user help desk

A user help desk has been set up to deal with faults. The service points can be reached on the following numbers:

- Communication products (xDSL, phones, ...): +49 (0) 9 11. 86 06-48 48
- Wireless LAN products: +49 (0) 9 11. 86 06-40 00

The user help desk can be reached as follows:

3 days before and during the event:

Mon – Sun and holidays, 8 a.m. to 7 p.m. or until end of event

Outside event hours and during the dismantling period:

Mon – Fri, 9 a.m. to 5 p.m.

6. Loss/liability

If terminal equipment is lost or damaged at the time due for dismantling (see item 10, Return), NürnbergMesse reserves the right to charge the exhibitor for damages based on the value category.

Our value categories for loss and damage are:

- Category A → EUR 500.00 (e.g. ADSL modem, telephones, printers, fax units and other communication terminal equipment)
- Category B → EUR 1,000.00 (e.g. SDSL and VDSL modem, Wireless LAN router)
- Category C → EUR 1,500.00 (e.g. PC and other computer products)

The exhibitor retains the right to prove that no damage or considerably less damage than the fixed value has been caused.

The exhibitor will be liable for any loss, damage or destruction of all communications equipment provided to him. Where liability is dependent on blame, it is the responsibility of the exhibitor to demonstrate that he is not to blame.

7. Liability of organizer

The liability of the organizer is governed by item 19 of the General Conditions for Participation in Fairs and Exhibitions.

8. Terms and conditions for lines

All lines and equipment will be provided exclusively by NürnbergMesse or its ServicePartner.

The fee is payable for the provision of the information and communication service, irrespective of whether it is actually used by the exhibitor. NürnbergMesse ensures that the information and communication access is provided and that any faults and failures during the service times are cleared quickly. Faults and failures are to be reported to NürnbergMesse without undue delay, otherwise rapid processing of the fault and restoration of the information and communication access cannot be assured.

The exhibitor is obliged to keep the user IDs and passwords assigned to him secret and to ensure that these cannot be accessed by third parties. Unless otherwise expressly agreed, the disclosure of user IDs and passwords to third parties to enable them to use the information and communication services is prohibited. The exhibitor is obliged to use the information and communication access only in the correct manner using the login facilities provided (user ID, password etc.) and not to bypass any access restrictions.

The exhibitor himself is responsible for the security of his data traffic.

The exhibitor is aware that unencrypted data exchange over wireless media may be intercepted by third parties.

The use of the Internet is at the exhibitor's own risk.

Unless otherwise indicated, all contents constitute third-party content for the purposes of § 8 German Telemedia Act (TMG) and the exhibitor himself is responsible for accessing this information. This particularly applies to possible damage to his hardware or software, data loss or other adverse effects attributable to the use of the Internet over the information and communication infrastructure, provided the incident causing such damage has not been caused by NürnbergMesse in accordance with item 19 of the General Conditions for Participation in Fairs and Exhibitions.

The exhibitor is responsible for correct use of the information and communication accesses with the user ID assigned to him. The exhibitor shall ensure that no prohibited or illegal contents are accessed or published and that no other actions that contravene applicable regulations or third party rights are taken or tolerated. If NürnbergMesse incurs costs or damages due to inquiries by investigating authorities, requests for information or other official or private measures or claims in connection with the hired access/IP address, the exhibitor shall be obliged to compensate such damage, unless he proves that he is not to blame for the misuse of the assigned information and communication access by third parties.

NürnbergMesse reserves the right to deactivate the information and communication access without prior notice if the exhibitor or third parties using the user IDs and passwords assigned to the exhibitor contravene provisions of this contract or legal provisions. Such deactivation shall not affect the entitlement of NürnbergMesse to receive payment of the fee.

The prices quoted apply to provision in single-story stands. For WLAN solutions for multi-story stands, the provision price will apply only to installation on the upper floor.

NürnbergMesse will handle coordination of the complete provision. The connection points are defined by NürnbergMesse. Additional cable laying work on the stand will be charged separately.

9. Customer's own Wireless LAN

Exhibitors may only set up a WLAN (Wireless Local Area Network) if this has been expressly approved in writing by the Exhibition Services Department. A WLAN may cause technical problems. Approval is to be requested on the form "Application for approval to operate customer's own WLAN".

The exhibitor is liable for damage caused by the operation of a WLAN without approval.

The exhibitor agrees to comply with the following conditions. Non-compliance may result in claims for damages by the organizer or the neighboring exhibitors affected.

The WLAN hardware to be installed must comply with the applicable regulations for radio networks in Europe. Whether the hardware used complies with these regulations can be determined from the documentation supplied by the equipment manufacturer.

It is essential that the SSID is named after the exhibitor to enable identification of WLAN networks. In the event of non-compliance, NürnbergMesse shall be entitled to shut down the network until this requirement is fulfilled.

Should NürnbergMesse discover that interference is caused to its existing networks, it is entitled to request the exhibitor to shut down his radio network. Compliance with this request is obligatory.

Siemens Enterprise Communications is the sole supplier of a WLAN infrastructure for commercial use on the NürnbergMesse site.

NürnbergMesse grants Siemens Enterprise Communications exclusive frequency control over WLAN standards IEEE 802.11b/g in the 2.4 GHz band and IEEE 802.11a/h in the 5 GHz band for the full-coverage WLAN service on the NürnbergMesse site.

Only channel 1 in the 2.4 GHz band (2412 MHz) is available on the NürnbergMesse site for use for all other applications/WLAN networks for operation by service partners of NürnbergMesse and operation of exhibitors' own radio/WLAN networks.

NürnbergMesse reserves the right to refuse approvals or not to approve applications for exhibitors' own WLAN networks, depending on the number and physical assignment per hall.

As part of quality assurance measures, both unregistered and approved WLAN networks and WLAN networks with excessive transmit power levels will be identified and the operators notified. These networks may possibly be approved after checking or are to be shut down if requested by NürnbergMesse – there is no legal entitlement to approval.

If an amicable solution is not possible, technical measures will be implemented to prevent the illegal operation of such WLAN networks.

10. Return of terminal equipment

Terminal equipment will be collected by NürnbergMesse or its ServicePartner by not later than the last day of dismantling. The dismantling times are defined for each event. If in exceptional cases no collection has been made, the terminal equipment still on the stand is to be returned by the exhibitor to the ServicePartner and confirmation of receipt obtained. In case of doubt, the return of the equipment is to be proved by presenting confirmation of receipt. In exceptional cases, appointments can be arranged by phoning the telephone numbers listed under item 5.

Terms of Business for Communications

1. Parts of contract

The contract comprises the following parts in the order of precedence shown:

- the respective order forms;
- these Terms of Business for Communications;
- the General and Special Conditions for Participation in Fairs and Exhibitions;
- the General Terms of Contract for the Exhibitors Info Manual;
- the terms of business and specifications for services provided by external network operators (e.g. Siemens Enterprise Communications).

2. Orders

The information and communications services listed overleaf can only be ordered from NürnbergMesse. Orders are subject to acceptance by NürnbergMesse, which may be given implicitly, i.e. by providing the ordered service.

An express surcharge of 25% of the value of the order will be charged for orders placed at short notice (< 14 days before start of event). This does not apply to orders for WLAN.

If the exhibitor requires changes to services already provided by NürnbergMesse, particularly for the exhibition stand, and NürnbergMesse undertakes to carry out the changes, NürnbergMesse may impose a charge to cover the extra cost actually incurred for work connected with each change.

If the order is received and accepted by NürnbergMesse less than five weeks before the start of the event, NürnbergMesse cannot accept responsibility for the correct and timely provision of the service.

If in such cases NürnbergMesse fails to provide its services or does not provide them correctly or in time, the exhibitor shall only be entitled to withdraw from the contract for the information and communication services listed overleaf or to appropriately reduce the agreed payment. Any further claims are excluded.

Complete or partial cancellation of the order is possible in accordance with item 9 of the General Conditions for Participation in Fairs and Exhibitions.

3. Provision period

The information and communications services ordered will be provided for the duration of the relevant event. If exhibitors require information and communications services to be provided outside this period, these additional services must be requested separately from NürnbergMesse.

4. Provision

All services ordered will be provided by NürnbergMesse or its appointed subcontractors. Equipment will be hired to the exhibitor. The exhibitor shall treat the equipment provided with care and only use it for the purposes specified in the contract. Where the exhibitor's own terminal equipment is used, it must conform to the applicable legal provisions, including current EU Directives on terminal equipment and the CCITT recommendations, particularly recommendation I430. If the exhibitor does not adhere to the technical standards and faults arise as a result, NürnbergMesse may demand reimbursement by the exhibitor of the costs of fault analysis and clearance. NürnbergMesse may also demand that the exhibitor removes the terminal equipment causing the faults from the network immediately. For Internet accesses, the network cards used in the exhibitor's PCs must conform to the Ethernet specifications (IEEE 802.3). The requested optional fixed IP addresses and access data will be supplied to the exhibitor with the invoice and activated on settlement of the invoice.

The exhibitor must not use any IP addresses other than those provided by NürnbergMesse, or change the specified subnet masks. If the exhibitor does not comply with this obligation and faults arise as a result, NürnbergMesse is entitled to demand reimbursement by the exhibitor of the costs of fault analysis and clearance. NürnbergMesse may also exclude from the LAN any exhibitors who, despite prior warning, use IP addresses other than those allocated to them or use other subnet masks than those specified and demand compensation for the associated costs.

If faults arise in the PC of an exhibitor who is using other IP addresses than those allocated or who has changed the subnet masks, NürnbergMesse will clear the fault at the request and risk of the exhibitor at the NürnbergMesse prices applicable for the period of the event.

At the request of the exhibitor, the ServicePartner of NürnbergMesse will configure the PC, where this is technically and operationally feasible, at the exhibitor's own risk and at the prices applicable at the time of the event.

5. Service points/user help desk

A user help desk has been set up to deal with faults. The service points can be reached on the following numbers:

- Communication products (xDSL, phones, ...): +49 (0) 9 11. 86 06-48 48
- Wireless LAN products: +49 (0) 9 11. 86 06-40 00

The user help desk can be reached as follows:

3 days before and during the event:

Mon – Sun and holidays, 8 a.m. to 7 p.m. or until end of event

Outside event hours and during the dismantling period:

Mon – Fri, 9 a.m. to 5 p.m.

6. Loss/liability

If terminal equipment is lost or damaged at the time due for dismantling (see item 10, Return), NürnbergMesse reserves the right to charge the exhibitor for damages based on the value category.

Our value categories for loss and damage are:

- Category A → EUR 500.00 (e.g. ADSL modem, telephones, printers, fax units and other communication terminal equipment)
- Category B → EUR 1,000.00 (e.g. SDSL and VDSL modem, Wireless LAN router)
- Category C → EUR 1,500.00 (e.g. PC and other computer products)

The exhibitor retains the right to prove that no damage or considerably less damage than the fixed value has been caused.

The exhibitor will be liable for any loss, damage or destruction of all communications equipment provided to him. Where liability is dependent on blame, it is the responsibility of the exhibitor to demonstrate that he is not to blame.

7. Liability of organizer

The liability of the organizer is governed by item 19 of the General Conditions for Participation in Fairs and Exhibitions.

8. Terms and conditions for lines

All lines and equipment will be provided exclusively by NürnbergMesse or its ServicePartner.

The fee is payable for the provision of the information and communication service, irrespective of whether it is actually used by the exhibitor. NürnbergMesse ensures that the information and communication access is provided and that any faults and failures during the service times are cleared quickly. Faults and failures are to be reported to NürnbergMesse without undue delay, otherwise rapid processing of the fault and restoration of the information and communication access cannot be assured.

The exhibitor is obliged to keep the user IDs and passwords assigned to him secret and to ensure that these cannot be accessed by third parties. Unless otherwise expressly agreed, the disclosure of user IDs and passwords to third parties to enable them to use the information and communication services is prohibited. The exhibitor is obliged to use the information and communication access only in the correct manner using the login facilities provided (user ID, password etc.) and not to bypass any access restrictions.

The exhibitor himself is responsible for the security of his data traffic.

The exhibitor is aware that unencrypted data exchange over wireless media may be intercepted by third parties.

The use of the Internet is at the exhibitor's own risk.

Unless otherwise indicated, all contents constitute third-party content for the purposes of § 8 German Telemedia Act (TMG) and the exhibitor himself is responsible for accessing this information. This particularly applies to possible damage to his hardware or software, data loss or other adverse effects attributable to the use of the Internet over the information and communication infrastructure, provided the incident causing such damage has not been caused by NürnbergMesse in accordance with item 19 of the General Conditions for Participation in Fairs and Exhibitions.

The exhibitor is responsible for correct use of the information and communication accesses with the user ID assigned to him. The exhibitor shall ensure that no prohibited or illegal contents are accessed or published and that no other actions that contravene applicable regulations or third party rights are taken or tolerated. If NürnbergMesse incurs costs or damages due to inquiries by investigating authorities, requests for information or other official or private measures or claims in connection with the hired access/IP address, the exhibitor shall be obliged to compensate such damage, unless he proves that he is not to blame for the misuse of the assigned information and communication access by third parties.

NürnbergMesse reserves the right to deactivate the information and communication access without prior notice if the exhibitor or third parties using the user IDs and passwords assigned to the exhibitor contravene provisions of this contract or legal provisions. Such deactivation shall not affect the entitlement of NürnbergMesse to receive payment of the fee.

The prices quoted apply to provision in single-story stands. For WLAN solutions for multi-story stands, the provision price will apply only to installation on the upper floor.

NürnbergMesse will handle coordination of the complete provision. The connection points are defined by NürnbergMesse. Additional cable laying work on the stand will be charged separately.

9. Customer's own Wireless LAN

Exhibitors may only set up a WLAN (Wireless Local Area Network) if this has been expressly approved in writing by the Exhibition Services Department. A WLAN may cause technical problems. Approval is to be requested on the form "Application for approval to operate customer's own WLAN".

The exhibitor is liable for damage caused by the operation of a WLAN without approval.

The exhibitor agrees to comply with the following conditions. Non-compliance may result in claims for damages by the organizer or the neighboring exhibitors affected.

The WLAN hardware to be installed must comply with the applicable regulations for radio networks in Europe. Whether the hardware used complies with these regulations can be determined from the documentation supplied by the equipment manufacturer.

It is essential that the SSID is named after the exhibitor to enable identification of WLAN networks. In the event of non-compliance, NürnbergMesse shall be entitled to shut down the network until this requirement is fulfilled.

Should NürnbergMesse discover that interference is caused to its existing networks, it is entitled to request the exhibitor to shut down his radio network. Compliance with this request is obligatory.

Siemens Enterprise Communications is the sole supplier of a WLAN infrastructure for commercial use on the NürnbergMesse site.

NürnbergMesse grants Siemens Enterprise Communications exclusive frequency control over WLAN standards IEEE 802.11b/g in the 2.4 GHz band and IEEE 802.11a/h in the 5 GHz band for the full-coverage WLAN service on the NürnbergMesse site.

Only channel 1 in the 2.4 GHz band (2412 MHz) is available on the NürnbergMesse site for use for all other applications/WLAN networks for operation by service partners of NürnbergMesse and operation of exhibitors' own radio/WLAN networks.

NürnbergMesse reserves the right to refuse approvals or not to approve applications for exhibitors' own WLAN networks, depending on the number and physical assignment per hall.

As part of quality assurance measures, both unregistered and approved WLAN networks and WLAN networks with excessive transmit power levels will be identified and the operators notified. These networks may possibly be approved after checking or are to be shut down if requested by NürnbergMesse – there is no legal entitlement to approval.

If an amicable solution is not possible, technical measures will be implemented to prevent the illegal operation of such WLAN networks.

10. Return of terminal equipment

Terminal equipment will be collected by NürnbergMesse or its ServicePartner by not later than the last day of dismantling. The dismantling times are defined for each event. If in exceptional cases no collection has been made, the terminal equipment still on the stand is to be returned by the exhibitor to the ServicePartner and confirmation of receipt obtained. In case of doubt, the return of the equipment is to be proved by presenting confirmation of receipt. In exceptional cases, appointments can be arranged by phoning the telephone numbers listed under item 5.

powered by NürnbergMesse and
Siemens Enterprise Communications

What you've only done on your stand so far, you can now do in the neighboring hall.

In cooperation with Siemens Enterprise Communications the NürnbergMesse has equipped the complete exhibition center with full-coverage WLAN. This means for you: Activities you've only done at your fair stand so far, can now be done from anywhere: **Surfing the internet for example, or handling your emails, or connecting to your company network...**

If you now order WLAN access and own a notebook with a WLAN card, you can be online throughout the exhibition center every single day of the fair: **in all halls, congress areas, foyers, catering areas and in the fair park** – simply everywhere.

And it doesn't matter if you're on the network alone or together with hundreds of other users: The **speed for up-and downloads is high** – actually remarkably high for a fair location.

Order your WLAN access now.

Technical details and forms for ordering WLAN can be found on the following pages.

Highspeed Internet Connection via Wireless LAN on the complete area of NürnbergMesse

Your WLAN advantages at a glance:

- **Comprehensive availability on the whole fair area**
- **Broadband internet access supplying up to 10 Mbit/s (symmetric)**
- **Fair rate for exhibitors**
- **Available during fair assembling and dismantling**
- **Secure company access via VPN at any time**
- **Permanent connection to your company's ordering tool, etc.**
- **Immediate availability of current emails**
- **Mobile access to any resource of your company**

Broadband Internet & Surfing via Wireless LAN

According to the standards IEEE 802.11b/g in 2.4 GHz band and IEEE 802.11a/h in 5 GHz band;
Maximum gross rate of data is 54 Mbit/s.

Is the Wi-Fi certificate shown on the bottom of your notebook?
Then you can be sure use Wireless LAN with your notebook.

Order our WLAN access for your notebook. Be always online on the complete fair area!

On request it is possible to install an individual, cross-hall network between the fair stands of your company – just mark the relevant item on page S2.46 with a cross.

Terms of Business for Communications

1. Parts of contract

The contract comprises the following parts in the order of precedence shown:

- the respective order forms;
- these Terms of Business for Communications;
- the General and Special Conditions for Participation in Fairs and Exhibitions;
- the General Terms of Contract for the Exhibitors Info Manual;
- the terms of business and specifications for services provided by external network operators (e.g. Siemens Enterprise Communications).

2. Orders

The information and communications services listed overleaf can only be ordered from NürnbergMesse. Orders are subject to acceptance by NürnbergMesse, which may be given implicitly, i.e. by providing the ordered service.

An express surcharge of 25% of the value of the order will be charged for orders placed at short notice (< 14 days before start of event). This does not apply to orders for WLAN.

If the exhibitor requires changes to services already provided by NürnbergMesse, particularly for the exhibition stand, and NürnbergMesse undertakes to carry out the changes, NürnbergMesse may impose a charge to cover the extra cost actually incurred for work connected with each change.

If the order is received and accepted by NürnbergMesse less than five weeks before the start of the event, NürnbergMesse cannot accept responsibility for the correct and timely provision of the service.

If in such cases NürnbergMesse fails to provide its services or does not provide them correctly or in time, the exhibitor shall only be entitled to withdraw from the contract for the information and communication services listed overleaf or to appropriately reduce the agreed payment. Any further claims are excluded.

Complete or partial cancellation of the order is possible in accordance with item 9 of the General Conditions for Participation in Fairs and Exhibitions.

3. Provision period

The information and communications services ordered will be provided for the duration of the relevant event. If exhibitors require information and communications services to be provided outside this period, these additional services must be requested separately from NürnbergMesse.

4. Provision

All services ordered will be provided by NürnbergMesse or its appointed subcontractors. Equipment will be hired to the exhibitor. The exhibitor shall treat the equipment provided with care and only use it for the purposes specified in the contract. Where the exhibitor's own terminal equipment is used, it must conform to the applicable legal provisions, including current EU Directives on terminal equipment and the CCITT recommendations, particularly recommendation I430. If the exhibitor does not adhere to the technical standards and faults arise as a result, NürnbergMesse may demand reimbursement by the exhibitor of the costs of fault analysis and clearance. NürnbergMesse may also demand that the exhibitor removes the terminal equipment causing the faults from the network immediately. For Internet accesses, the network cards used in the exhibitor's PCs must conform to the Ethernet specifications (IEEE 802.3). The requested optional fixed IP addresses and access data will be supplied to the exhibitor with the invoice and activated on settlement of the invoice.

The exhibitor must not use any IP addresses other than those provided by NürnbergMesse, or change the specified subnet masks. If the exhibitor does not comply with this obligation and faults arise as a result, NürnbergMesse is entitled to demand reimbursement by the exhibitor of the costs of fault analysis and clearance. NürnbergMesse may also exclude from the LAN any exhibitors who, despite prior warning, use IP addresses other than those allocated to them or use other subnet masks than those specified and demand compensation for the associated costs.

If faults arise in the PC of an exhibitor who is using other IP addresses than those allocated or who has changed the subnet masks, NürnbergMesse will clear the fault at the request and risk of the exhibitor at the NürnbergMesse prices applicable for the period of the event.

At the request of the exhibitor, the ServicePartner of NürnbergMesse will configure the PC, where this is technically and operationally feasible, at the exhibitor's own risk and at the prices applicable at the time of the event.

5. Service points/user help desk

A user help desk has been set up to deal with faults. The service points can be reached on the following numbers:

- Communication products (xDSL, phones, ...): +49 (0) 9 11. 86 06-48 48
- Wireless LAN products: +49 (0) 9 11. 86 06-40 00

The user help desk can be reached as follows:

3 days before and during the event:

Mon – Sun and holidays, 8 a.m. to 7 p.m. or until end of event

Outside event hours and during the dismantling period:

Mon – Fri, 9 a.m. to 5 p.m.

6. Loss/liability

If terminal equipment is lost or damaged at the time due for dismantling (see item 10, Return), NürnbergMesse reserves the right to charge the exhibitor for damages based on the value category.

Our value categories for loss and damage are:

- Category A → EUR 500.00 (e.g. ADSL modem, telephones, printers, fax units and other communication terminal equipment)
- Category B → EUR 1,000.00 (e.g. SDSL and VDSL modem, Wireless LAN router)
- Category C → EUR 1,500.00 (e.g. PC and other computer products)

The exhibitor retains the right to prove that no damage or considerably less damage than the fixed value has been caused.

The exhibitor will be liable for any loss, damage or destruction of all communications equipment provided to him. Where liability is dependent on blame, it is the responsibility of the exhibitor to demonstrate that he is not to blame.

7. Liability of organizer

The liability of the organizer is governed by item 19 of the General Conditions for Participation in Fairs and Exhibitions.

8. Terms and conditions for lines

All lines and equipment will be provided exclusively by NürnbergMesse or its ServicePartner.

The fee is payable for the provision of the information and communication service, irrespective of whether it is actually used by the exhibitor. NürnbergMesse ensures that the information and communication access is provided and that any faults and failures during the service times are cleared quickly. Faults and failures are to be reported to NürnbergMesse without undue delay, otherwise rapid processing of the fault and restoration of the information and communication access cannot be assured.

The exhibitor is obliged to keep the user IDs and passwords assigned to him secret and to ensure that these cannot be accessed by third parties. Unless otherwise expressly agreed, the disclosure of user IDs and passwords to third parties to enable them to use the information and communication services is prohibited. The exhibitor is obliged to use the information and communication access only in the correct manner using the login facilities provided (user ID, password etc.) and not to bypass any access restrictions.

The exhibitor himself is responsible for the security of his data traffic.

The exhibitor is aware that unencrypted data exchange over wireless media may be intercepted by third parties.

The use of the Internet is at the exhibitor's own risk.

Unless otherwise indicated, all contents constitute third-party content for the purposes of § 8 German Telemedia Act (TMG) and the exhibitor himself is responsible for accessing this information. This particularly applies to possible damage to his hardware or software, data loss or other adverse effects attributable to the use of the Internet over the information and communication infrastructure, provided the incident causing such damage has not been caused by NürnbergMesse in accordance with item 19 of the General Conditions for Participation in Fairs and Exhibitions.

The exhibitor is responsible for correct use of the information and communication accesses with the user ID assigned to him. The exhibitor shall ensure that no prohibited or illegal contents are accessed or published and that no other actions that contravene applicable regulations or third party rights are taken or tolerated. If NürnbergMesse incurs costs or damages due to inquiries by investigating authorities, requests for information or other official or private measures or claims in connection with the hired access/IP address, the exhibitor shall be obliged to compensate such damage, unless he proves that he is not to blame for the misuse of the assigned information and communication access by third parties.

NürnbergMesse reserves the right to deactivate the information and communication access without prior notice if the exhibitor or third parties using the user IDs and passwords assigned to the exhibitor contravene provisions of this contract or legal provisions. Such deactivation shall not affect the entitlement of NürnbergMesse to receive payment of the fee.

The prices quoted apply to provision in single-story stands. For WLAN solutions for multi-story stands, the provision price will apply only to installation on the upper floor.

NürnbergMesse will handle coordination of the complete provision. The connection points are defined by NürnbergMesse. Additional cable laying work on the stand will be charged separately.

9. Customer's own Wireless LAN

Exhibitors may only set up a WLAN (Wireless Local Area Network) if this has been expressly approved in writing by the Exhibition Services Department. A WLAN may cause technical problems. Approval is to be requested on the form "Application for approval to operate customer's own WLAN".

The exhibitor is liable for damage caused by the operation of a WLAN without approval.

The exhibitor agrees to comply with the following conditions. Non-compliance may result in claims for damages by the organizer or the neighboring exhibitors affected.

The WLAN hardware to be installed must comply with the applicable regulations for radio networks in Europe. Whether the hardware used complies with these regulations can be determined from the documentation supplied by the equipment manufacturer.

It is essential that the SSID is named after the exhibitor to enable identification of WLAN networks. In the event of non-compliance, NürnbergMesse shall be entitled to shut down the network until this requirement is fulfilled.

Should NürnbergMesse discover that interference is caused to its existing networks, it is entitled to request the exhibitor to shut down his radio network. Compliance with this request is obligatory.

Siemens Enterprise Communications is the sole supplier of a WLAN infrastructure for commercial use on the NürnbergMesse site.

NürnbergMesse grants Siemens Enterprise Communications exclusive frequency control over WLAN standards IEEE 802.11b/g in the 2.4 GHz band and IEEE 802.11a/h in the 5 GHz band for the full-coverage WLAN service on the NürnbergMesse site.

Only channel 1 in the 2.4 GHz band (2412 MHz) is available on the NürnbergMesse site for use for all other applications/WLAN networks for operation by service partners of NürnbergMesse and operation of exhibitors' own radio/WLAN networks.

NürnbergMesse reserves the right to refuse approvals or not to approve applications for exhibitors' own WLAN networks, depending on the number and physical assignment per hall.

As part of quality assurance measures, both unregistered and approved WLAN networks and WLAN networks with excessive transmit power levels will be identified and the operators notified. These networks may possibly be approved after checking or are to be shut down if requested by NürnbergMesse – there is no legal entitlement to approval.

If an amicable solution is not possible, technical measures will be implemented to prevent the illegal operation of such WLAN networks.

10. Return of terminal equipment

Terminal equipment will be collected by NürnbergMesse or its ServicePartner by not later than the last day of dismantling. The dismantling times are defined for each event. If in exceptional cases no collection has been made, the terminal equipment still on the stand is to be returned by the exhibitor to the ServicePartner and confirmation of receipt obtained. In case of doubt, the return of the equipment is to be proved by presenting confirmation of receipt. In exceptional cases, appointments can be arranged by phoning the telephone numbers listed under item 5.

2. Professional: WLAN

2.1 Booth networking across halls via WLAN
 Separate, secure WLAN network segment with your own Class C IP address range for up to 250 clients. Set where you need it and between halls.

Available Security Items:

- WPA-PSK with TKIP encryption
- WPA2-PSK with AES encryption
- Further codings on application

Available Access Types:

- Only intranet (Stand to Stand network)
- Internet access in addition

Requested locations for cross network:

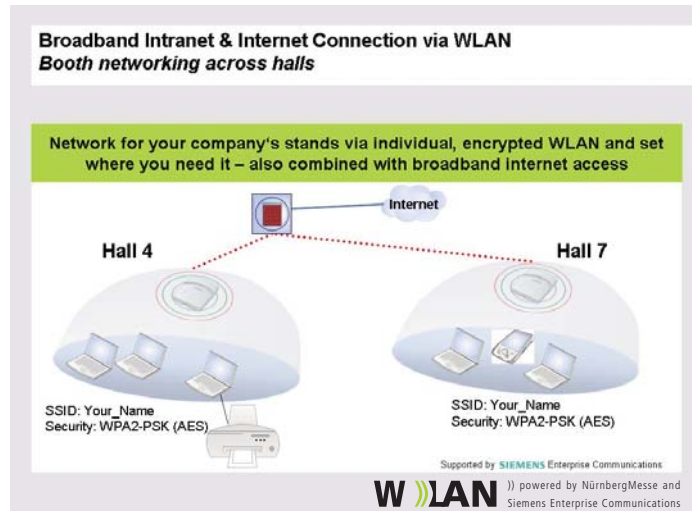

Hall _____ Stand _____

Hall _____ Stand _____

Price on application

Individual stand networking via encrypted WLAN starting at just EUR 980 (cross halls) (Art. 52002010)

Important: For this kind of network considerable planning is necessary. To adapt the network according to your needs the order must be placed before the above date of return. We would be glad to call you about this item.

Example chart, a cross hall stand network is naturally possible on the complete fair area.

2.2 I am interested in a different, individual solution. Please call me back.

This contract is governed by the following terms and conditions in the order of precedence shown: our Terms of Business for Communications (printed overleaf), the General and Special Conditions for Participation in Fairs and Exhibitions, the General Terms of Contract for the Exhibitors Info Manual and the General Terms of Business of the ServicePartner Siemens Enterprise Communications GmbH & Co. KG. All terms of business can be sent by NürnbergMesse on request.

* If necessary, NürnbergMesse is entitled to have the service ordered provided by another ServicePartner. In this case, the customer will be notified of the other ServicePartner in good time.

Place and date

Company stamp and authorized signature

Terms of Business for Communications

1. Parts of contract

The contract comprises the following parts in the order of precedence shown:

- the respective order forms;
- these Terms of Business for Communications;
- the General and Special Conditions for Participation in Fairs and Exhibitions;
- the General Terms of Contract for the Exhibitors Info Manual;
- the terms of business and specifications for services provided by external network operators (e.g. Siemens Enterprise Communications).

2. Orders

The information and communications services listed overleaf can only be ordered from NürnbergMesse. Orders are subject to acceptance by NürnbergMesse, which may be given implicitly, i.e. by providing the ordered service.

An express surcharge of 25% of the value of the order will be charged for orders placed at short notice (< 14 days before start of event). This does not apply to orders for WLAN.

If the exhibitor requires changes to services already provided by NürnbergMesse, particularly for the exhibition stand, and NürnbergMesse undertakes to carry out the changes, NürnbergMesse may impose a charge to cover the extra cost actually incurred for work connected with each change.

If the order is received and accepted by NürnbergMesse less than five weeks before the start of the event, NürnbergMesse cannot accept responsibility for the correct and timely provision of the service.

If in such cases NürnbergMesse fails to provide its services or does not provide them correctly or in time, the exhibitor shall only be entitled to withdraw from the contract for the information and communication services listed overleaf or to appropriately reduce the agreed payment. Any further claims are excluded.

Complete or partial cancellation of the order is possible in accordance with item 9 of the General Conditions for Participation in Fairs and Exhibitions.

3. Provision period

The information and communications services ordered will be provided for the duration of the relevant event. If exhibitors require information and communications services to be provided outside this period, these additional services must be requested separately from NürnbergMesse.

4. Provision

All services ordered will be provided by NürnbergMesse or its appointed subcontractors. Equipment will be hired to the exhibitor. The exhibitor shall treat the equipment provided with care and only use it for the purposes specified in the contract. Where the exhibitor's own terminal equipment is used, it must conform to the applicable legal provisions, including current EU Directives on terminal equipment and the CCITT recommendations, particularly recommendation I430. If the exhibitor does not adhere to the technical standards and faults arise as a result, NürnbergMesse may demand reimbursement by the exhibitor of the costs of fault analysis and clearance. NürnbergMesse may also demand that the exhibitor removes the terminal equipment causing the faults from the network immediately. For Internet accesses, the network cards used in the exhibitor's PCs must conform to the Ethernet specifications (IEEE 802.3). The requested optional fixed IP addresses and access data will be supplied to the exhibitor with the invoice and activated on settlement of the invoice.

The exhibitor must not use any IP addresses other than those provided by NürnbergMesse, or change the specified subnet masks. If the exhibitor does not comply with this obligation and faults arise as a result, NürnbergMesse is entitled to demand reimbursement by the exhibitor of the costs of fault analysis and clearance. NürnbergMesse may also exclude from the LAN any exhibitors who, despite prior warning, use IP addresses other than those allocated to them or use other subnet masks than those specified and demand compensation for the associated costs.

If faults arise in the PC of an exhibitor who is using other IP addresses than those allocated or who has changed the subnet masks, NürnbergMesse will clear the fault at the request and risk of the exhibitor at the NürnbergMesse prices applicable for the period of the event.

At the request of the exhibitor, the ServicePartner of NürnbergMesse will configure the PC, where this is technically and operationally feasible, at the exhibitor's own risk and at the prices applicable at the time of the event.

5. Service points/user help desk

A user help desk has been set up to deal with faults. The service points can be reached on the following numbers:

- Communication products (xDSL, phones, ...): +49 (0) 9 11. 86 06-48 48
- Wireless LAN products: +49 (0) 9 11. 86 06-40 00

The user help desk can be reached as follows:

3 days before and during the event:

Mon – Sun and holidays, 8 a.m. to 7 p.m. or until end of event

Outside event hours and during the dismantling period:

Mon – Fri, 9 a.m. to 5 p.m.

6. Loss/liability

If terminal equipment is lost or damaged at the time due for dismantling (see item 10, Return), NürnbergMesse reserves the right to charge the exhibitor for damages based on the value category.

Our value categories for loss and damage are:

- Category A → EUR 500.00 (e.g. ADSL modem, telephones, printers, fax units and other communication terminal equipment)
- Category B → EUR 1,000.00 (e.g. SDSL and VDSL modem, Wireless LAN router)
- Category C → EUR 1,500.00 (e.g. PC and other computer products)

The exhibitor retains the right to prove that no damage or considerably less damage than the fixed value has been caused.

The exhibitor will be liable for any loss, damage or destruction of all communications equipment provided to him. Where liability is dependent on blame, it is the responsibility of the exhibitor to demonstrate that he is not to blame.

7. Liability of organizer

The liability of the organizer is governed by item 19 of the General Conditions for Participation in Fairs and Exhibitions.

8. Terms and conditions for lines

All lines and equipment will be provided exclusively by NürnbergMesse or its ServicePartner.

The fee is payable for the provision of the information and communication service, irrespective of whether it is actually used by the exhibitor. NürnbergMesse ensures that the information and communication access is provided and that any faults and failures during the service times are cleared quickly. Faults and failures are to be reported to NürnbergMesse without undue delay, otherwise rapid processing of the fault and restoration of the information and communication access cannot be assured.

The exhibitor is obliged to keep the user IDs and passwords assigned to him secret and to ensure that these cannot be accessed by third parties. Unless otherwise expressly agreed, the disclosure of user IDs and passwords to third parties to enable them to use the information and communication services is prohibited. The exhibitor is obliged to use the information and communication access only in the correct manner using the login facilities provided (user ID, password etc.) and not to bypass any access restrictions.

The exhibitor himself is responsible for the security of his data traffic.

The exhibitor is aware that unencrypted data exchange over wireless media may be intercepted by third parties.

The use of the Internet is at the exhibitor's own risk.

Unless otherwise indicated, all contents constitute third-party content for the purposes of § 8 German Telemedia Act (TMG) and the exhibitor himself is responsible for accessing this information. This particularly applies to possible damage to his hardware or software, data loss or other adverse effects attributable to the use of the Internet over the information and communication infrastructure, provided the incident causing such damage has not been caused by NürnbergMesse in accordance with item 19 of the General Conditions for Participation in Fairs and Exhibitions.

The exhibitor is responsible for correct use of the information and communication accesses with the user ID assigned to him. The exhibitor shall ensure that no prohibited or illegal contents are accessed or published and that no other actions that contravene applicable regulations or third party rights are taken or tolerated. If NürnbergMesse incurs costs or damages due to inquiries by investigating authorities, requests for information or other official or private measures or claims in connection with the hired access/IP address, the exhibitor shall be obliged to compensate such damage, unless he proves that he is not to blame for the misuse of the assigned information and communication access by third parties.

NürnbergMesse reserves the right to deactivate the information and communication access without prior notice if the exhibitor or third parties using the user IDs and passwords assigned to the exhibitor contravene provisions of this contract or legal provisions. Such deactivation shall not affect the entitlement of NürnbergMesse to receive payment of the fee.

The prices quoted apply to provision in single-story stands. For WLAN solutions for multi-story stands, the provision price will apply only to installation on the upper floor.

NürnbergMesse will handle coordination of the complete provision. The connection points are defined by NürnbergMesse. Additional cable laying work on the stand will be charged separately.

9. Customer's own Wireless LAN

Exhibitors may only set up a WLAN (Wireless Local Area Network) if this has been expressly approved in writing by the Exhibition Services Department. A WLAN may cause technical problems. Approval is to be requested on the form "Application for approval to operate customer's own WLAN".

The exhibitor is liable for damage caused by the operation of a WLAN without approval.

The exhibitor agrees to comply with the following conditions. Non-compliance may result in claims for damages by the organizer or the neighboring exhibitors affected.

The WLAN hardware to be installed must comply with the applicable regulations for radio networks in Europe. Whether the hardware used complies with these regulations can be determined from the documentation supplied by the equipment manufacturer.

It is essential that the SSID is named after the exhibitor to enable identification of WLAN networks. In the event of non-compliance, NürnbergMesse shall be entitled to shut down the network until this requirement is fulfilled.

Should NürnbergMesse discover that interference is caused to its existing networks, it is entitled to request the exhibitor to shut down his radio network. Compliance with this request is obligatory.

Siemens Enterprise Communications is the sole supplier of a WLAN infrastructure for commercial use on the NürnbergMesse site.

NürnbergMesse grants Siemens Enterprise Communications exclusive frequency control over WLAN standards IEEE 802.11b/g in the 2.4 GHz band and IEEE 802.11a/h in the 5 GHz band for the full-coverage WLAN service on the NürnbergMesse site.

Only channel 1 in the 2.4 GHz band (2412 MHz) is available on the NürnbergMesse site for use for all other applications/WLAN networks for operation by service partners of NürnbergMesse and operation of exhibitors' own radio/WLAN networks.

NürnbergMesse reserves the right to refuse approvals or not to approve applications for exhibitors' own WLAN networks, depending on the number and physical assignment per hall.

As part of quality assurance measures, both unregistered and approved WLAN networks and WLAN networks with excessive transmit power levels will be identified and the operators notified. These networks may possibly be approved after checking or are to be shut down if requested by NürnbergMesse – there is no legal entitlement to approval.

If an amicable solution is not possible, technical measures will be implemented to prevent the illegal operation of such WLAN networks.

10. Return of terminal equipment

Terminal equipment will be collected by NürnbergMesse or its ServicePartner by not later than the last day of dismantling. The dismantling times are defined for each event. If in exceptional cases no collection has been made, the terminal equipment still on the stand is to be returned by the exhibitor to the ServicePartner and confirmation of receipt obtained. In case of doubt, the return of the equipment is to be proved by presenting confirmation of receipt. In exceptional cases, appointments can be arranged by phoning the telephone numbers listed under item 5.
